SOWING SUCCESS: SPRING PLANTING STRATEGIES FOR 2025

LINEUP

- **Alex Frasier: Polycropping* soybeans for healthy soil and healthy yields**
- **Landon and Anne Plagge: Diversifying your rotation with oats and milling**
- **Rick Bieber: Supercharging soil with roots and ruminants**
- **Farmer panel**

*Polycropping: Similar to companion cropping; planting two crops in the same field with the intention of harvesting only one of them.

Monday, March 17, 10 a.m.-2 p.m.

**University of WI-Platteville
Ag Tech Center
29200 College Farm Rd.
Platteville, WI 53818**
